

# Welcome to Beverley

# Shire of Beverley

The heritage wheatbelt town of Beverley is 130 km east of Perth on the Avon River. For thousands of years the Ballardong people lived along the *Coluger* (Avon River) and knew the area as *Wergijan*, rich in bush food and native animals. Officially founded in 1838, Beverley is one of WA's oldest settlements. Beverley was one of the first areas opened for agriculture after Ensign Dale was accompanied by Governor Stirling to inspect the region, this led to large tracts of land taken up for farming.
